

DELAYED BY SOLD ROCK

Contractors Face New Obstacles
on the Leamington Cut-off.

FAVOR SUBURBAN FRANCHISE

LOCAL SHOPS BUSY REMODELING
OLD CARS.

ALL the men that can be pressed into service will not be too many to enable the contractors to finish the work at the Leamington cut-off in the specified time. William Ashton, of the engineering department of the Oregon Short Line said yesterday that a big force is employed on the work, but there are not enough men. The contract specifies that the work shall be done by the 1st of January, and the contractors say they can get the work done by that time. In street parlance, they will have to make the cut-off if they get the work of their hands in the time specified.

In one of the cuts the men have encountered solid rock and this delays the work. The contractors have been compelled to sub-portion the work and these parties have resorted until now about ten contractors are engaged on the cut. Among the new contractors who have put on a force of men are Maloney Bros., of Ogden. They have already sent two large steam shovels down the line and one of them, it is understood, will be put in operation at Dorris.

One of the cuts is ninety-five feet deep and 350 feet long from grade to grade. Mr. Ashton estimates that about 2,000,000 yards of earth will have to be removed. The work is one of the most extensive ever undertaken in this country. While the contractors depend upon local help for the grading, they will have to look to the east for help in ballasting, bridging and similar work requiring skilled labor.

It is hardly probable that the road will be ready for operation before another year. It will be in the middle of the winter before the grading is completed and winter is a bad time to put down rails. Some track is already being laid. Steel has been put down at Junction Point and the Rio Grande tracking has been done north of there. A stretch of track has also been laid from Buena Vista west.

REMODELING THE COACHES.

Battery of Engines to Be Overhauled at the Local Shops.

What is practically a new train has been made out of No. 9 on the Oregon Short Line. This train, vestibuled coach and engine made its first trip into Butte yesterday. The coaches have been thoroughly overhauled, repainted and varnished and the train is now one of the most attractive on the line.

THE CONDUCTORS' PARADISE.

Mexico Has the Most Delightfully Mismanaged Roads in the Country.

No railroad country in the world can equal the Mexican lines for loose management. C. S. Williams, contracting agent for the Chicago, Milwaukee & St. Paul railroad, was in a reminiscent mood yesterday and told several interesting incidents of his trip to the city of Mexico. Travel is cheap in that country and a person can go over the Mexican Central from El Paso to Mexico and ride in a Pullman for less than the same trip would cost a person in this country.

The country is a paradise for conductors. Help is very cheap, but it is not so for the passengers. The conductor usually manages to draw a good salary. It is pretty well understood that only a percentage of the money collected on the train is turned over to the company. Occasionally the conductor superintends calls on the company for a loan. If it is not forthcoming the conductor pretends to lose his job. He knows this, and the superintendent is pretty sure to get him or \$500.

The superintendent usually knows about how much to borrow, and nothing is ever said about paying back. There is no such thing as a loan, and the superintendent gets his share of the "grat."

FAVOR THE FRANCHISE.

County Commissioners Deliberate, But Fail to Grant the Petition.

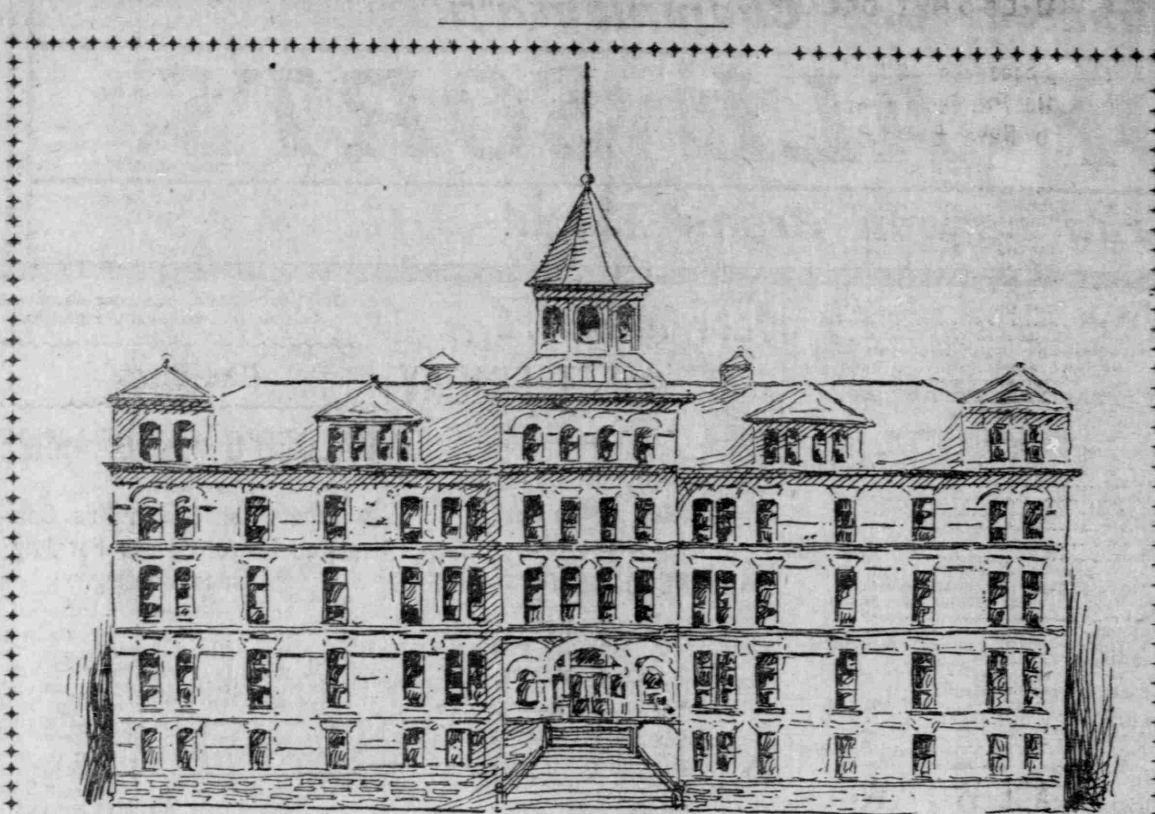

At a meeting of the county commissioners yesterday afternoon, the petition for a franchise of the Salt Lake & Suburban Railway company was taken up, and while nothing definite was done, it seemed to be the opinion of the members of the board that there is no competition, as on the part of the contemplated road running along Third East to the Redwood road in Taylorville, the franchise ought to be granted.

Rock Island Interested Financially in the Mexican Central.

Topeka, Kan., July 19.—It is understood among the Rock Island officials here that a closer traffic arrangement between the Rock Island and the Mexican Central is now assured. It is estimated that the capitalists who are

W. H. GROVES LATTER-DAY SAINTS' HOSPITAL

ANOTHER MONUMENT to the architectural wealth and progressiveness of Salt Lake City will be the W. H. Groves Latter-day Saints' hospital, for which the contract will soon be let. The building, which will cost \$75,000, will have a frontage of 151 feet on First South street, with a wing of 117 feet fronting on First West street and a uniform width of forty feet. The walls of the structure will be of stone and pressed brick, with terra cotta facing and in general of help it will be one of the most imposing buildings in the city. A central tower will be equipped with all the conveniences known to modern sur-

gery, and will be ready for any demand that may be made upon the institution. A conspicuous feature will be two operating rooms on the fourth floor. One of these will be entirely of glass and metal in order to make it as thoroughly antiseptic as modern science will allow it to be made. There will also be a solarium, over the boiler room for the use of patients on sunny days.

The dining room, kitchen equipment and servants' quarters will be in the basement. The hospital will also be in the lower part of the building, and the arrangement will be such as to insure absolute sanitary protection.

The reception rooms, consulting rooms, waiting rooms and twenty-five of the rooms for patients will be on the second floor. The hospital ward and private rooms, with baths, etc., will be on the next two floors. There will be over 100 rooms for patients, and every convenience and equipment that can add to their comfort will be provided in the general arrangement of the building.

The hospital is named after the late Dr. W. H. Groves, who left \$40,000 as a nucleus fund for such a hospital. Dr. F. S. Richards is chairman of the trustees, and Dr. J. S. Richards is the head of the hospital staff.

The Kootenai district, \$25; to territory west of Cascade range, \$25. Tickets will be sold good one way.

The St. Paul-Chicago roads have agreed to an \$8 basis in connection with the rates from St. Paul and Duluth west.

Railroad Notes.

L. C. Trent left yesterday for Portland.

C. J. McNitt left yesterday morning for the east.

Governor and Mrs. Wells left yesterday on the Short Line special for Soda Springs, Ida.

Mr. Rose of the Illinois Central has returned from Ogden, where he accompanied his wife, who is on her way east.

C. K. Junkins of San Francisco, contracting agent for the Rio Grande, was in town yesterday. Mr. Junkins was accompanied by his wife and is enjoying a pleasure trip through this state and Colorado.

P. I. Whitney of St. Paul, general passenger agent of the Great Northern, and J. P. Elmer of the Maple Leaf were in the city for a short time yesterday upon their return from the meeting at Colorado Springs.

GRANT THREE PARDONS.

Convicts Are Released From Penitentiary—Freedom Refused Three.

At the regular monthly meeting yesterday morning the board of pardons granted three pardons, under the same number and refused one application for a commutation of sentence.

W. Stewart, convicted of forgery and sentenced by Judge Stewart on Nov. 14, 1901, to fifteen months in the state prison, was one of the fortunate ones receiving a pardon, likewise James Campbell, who was on April 19, 1902, sentenced by Judge Tanner to six months in the county jail.

The third fortunate is William H. Ker-shaw, sentenced by Judge Booth on May 12, 1902, to five months in the county jail at Provo.

The unsuccessful ones, whose petitions for pardon were refused, are: Willie Williams, sentenced on March 5, 1901, by Judge Stewart to three years in the state prison, for grand larceny; Arthur Curtis, serving a ten-year sentence for burglary. He was sentenced by Judge Stewart on Feb. 18, 1899, to three years in the state prison, for grand larceny. The sentence was imposed upon him by Judge Morse, Oct. 22, 1901.

ONLY REAL WILD WEST.

The genuine, original and only real wild west, organized and conducted by Colonel W. F. Cody (Buffalo Bill), is announced to appear at Ogden, Aug. 13 and 14, during the Elks' carnival.

Colonel Cody is universally known and very highly regarded for the splendidly effective and heroic work he did, not only as the chief of scouts with the army in various Indian campaigns, but for his energy, courage, trustworthiness, fertility of resource, and sturdiness in practically every phase of life necessarily experienced by the frontiersman in the days when savagery was struggling against civilization along the western border.

He has had the genius and ability to perfect an arenic presentation of the salient features of that life, employing in it several hundred men, red and white, all having their personal knowledge of the conditions of existence re-enacted before the public.

With these, he has combined a great number of other typical representations of the "rough riders" of Europe and our own country, whose uniforms, accomplishments and equipment are very interesting: "life savers," who make a thrilling, realistic exhibit; and much more that makes it altogether the finest of all shows.

FIX THE TAX LEVY.

County Commissioners Decide on 6.7 Mills For This Year.

The county commissioners of Salt Lake county, under the assumption that they can get along with \$20,000 for general county purposes, yesterday levied at 6.7 mills against 7.2 mills last year and 8.5 mills in 1900. The levy, which is 5 mills less than last year, is divided as follows: Four mills for general county purposes, 2.2 mills for interest on bonds, and 0.5 mills for a county school tax.

The commissioners expect the present levy on bonds to fall \$4,000 short of being sufficient, but they expect to make up the deficiency from license and fees. On the other hand, the school tax valuation in the county is being increased, and it is expected to yield the schools \$3,500 more than it did last year. The total tax that will be raised by the levy fixed yesterday will be \$185,200.

A LYNCHING PROBABLE

Well Known Consulting Engineer at Butte Smelter Shot by a Crank.

Butte, Mont., July 19.—W. J. Evans, consulting engineer of the big Washoe smelters of the Amalgamated Copper company at Anaconda, and one of the best known engineers of the northwest was shot twice this morning in that city by John McGeary, a laborer, who is believed to be a crank, and fatally wounded.

McGeary had a patent which he wished Mr. Evans to adopt at the works; and upon being referred to another party, opened fire upon the engineer as he turned to leave. The first shot struck Evans in the back, bringing him to the ground. Standing over his prostrate body, McGeary again shot him.

Great excitement prevails in the city tonight as a result of the tragedy.

POLICE TOOK NO CHANCES.

Anderson a Murderer.

Spokane, Wash., July 19.—Coroner Baker held an inquest over the body of Edward Pagestone, who was shot Thursday night in his saloon on Riverside avenue. The decision was that Pagestone came to his death from the effects of gunshot wounds made by a revolver held in the hands of August Anderson, and fired with murderous intent.

Anderson is in jail. He confesses the killing, and claims the trouble started because he saw his wife in one of the boxes of the saloon. It is believed, however, that he was crazed by drink, and that his wife had not been there at all.

Lennox Found Guilty.

Butte, Mont., July 19.—Charles Lennox was today found guilty in the first degree of complicity in the murder of Fireman Williams at Silver Bow Junction in April last. James Martin, his partner in crime, has already been found guilty of murder in the first degree. The two men were convicted upon the confession of Lennox. Williams was shot to death while resisting robbery.
